REDUCTION ON BAIL.
Of Men Who Issued Fraudulent Passports.

New York, Jan. 5.—Efforts of counsel for Carl Ruedo to obtain a reduction of his \$20,000 bail failed today. Ruedo is one of twelve men arrested Saturday in connection with the alleged conspiracy to defraud the government through issuance and use of fraudulent passports, on which German reservists might travel to Europe unmolested. After Attorney Charles G. Oberweiser had made futile application to United States Commissioner Houghton yesterday for reduction of bail, he obtained a writ of habeas corpus for his client's appearance today before Judge Hand in the federal court.

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat and take a glass of Salts to flush out kidneys—Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the day. When the kidneys are clogged with uric acid, they stop the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull ache in the kidney region, you suffer from backache, first headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges. Make a delightful effervescent drink, take it at once, it will flush out the acids in urine, so it no longer is a source of irritation, thus inducing bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent drink, take it at once, it will flush out the acids in urine, so it no longer is a source of irritation, thus inducing bladder weakness. Jad Salts is clean and active. Druggists say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

WHITE WAY LIGHTS.

Half the Number Are Now Turned Off After Midnight.

Half the electric street lights on the "white way" from Prater bridge to Thames square are now turned out at midnight each night, as the police commission have issued that order to go into effect from the first of the year.

It is found that turning off every other light leaves the "white way" streets sufficiently well illuminated after midnight, and it is estimated that the saving may be about \$150 a month.

When the lights were put up, the alternate lights were on different circuits so that they could be turned off this way, but so far the plan had not been carried out.

The January criminal term of the superior court came in here at 2 o'clock on Tuesday afternoon with Judge Gardner Greene presiding and a jury summoned in for Wednesday.

Nineteen prisoners were put to plea during the afternoon, of whom two pleaded guilty and all the others not guilty. The two who pleaded guilty were Oswald R. Fitzpatrick of Meriden, accused of non-support of his wife and child, and John Tarnell of this city, accused of shooting a pistol at his wife on November 12 at their home at No. 5 North Thames street.

In the case of Fitzpatrick, a Meriden attorney appeared for him and the court was informed that the accused is a doctor, who is a plumber and a painter. He was sentenced to jail for six months or in lieu thereof to pay his wife and child \$6 weekly for six months.

The bond was set at \$500 as surety. The bond was furnished and the money will be paid. Judge Greene thought the wife and child were entitled to one-half what the man was earning.

When Tarnell who is 45, was put to plea he said he had no lawyer and could not pay bond. He was committed to jail but sentence was not imposed. On the night of November 12 in the course of a disagreement with his wife, he fired a shot from a .22 caliber pistol at her but missed. Then he fled up the Central Vermont railroad track to his home in the evening. He was arrested there later in the evening. He is the cousin, Mike Macuta, where he was found by Sergeant John H. Kane and Police Officer John J. Sullivan. He was brought to the police station where he showed a cut on his breast which he claimed was made by a knife in the hand of his wife.

If You Could Only

Be a Stomach

You'd Go to Bed Rather Sore at the Work You'd Have to Do.

Fancy a master that works a horse so long, without rest, that the poor old beast has to go to a bone pile.

Fancy yourself doing the same thing with your stomach—the noblest of all our physical organs.

Imagine yourself devoting hours of ceaseless work to the direction of a meal which you cannot digest because of wrongful ingredients given to you by the blood.

Is not a man very foolish to imagine a raw sick stomach capable of good work when the juices it receives are so filled with alkali or acid that they actually eat the stomach membrane?

Do you not know from a common sense point of view that to continue such a course means not only the impairment of your stomach but of all digestion organs as well?

Stuart's Dyspepsia Tablets go into your stomach just like food. They are so powerful in health giving, qualities that almost instantly the work of digestion is improved. They ease up the stomach, and they go into the blood and balance it perfectly. Thus, when the stomach calls for new juices at your next meal you are able to furnish them.

Your common sense will tell you that so great an aid to digestion as Stuart's Dyspepsia Tablets could not be in every drug store, unless demanded after trial by all classes of stomach sufferers.

No more are they a doubtful quality. They have passed a rigid examination by all manner of stomach and digestive tests, and they have been awarded the diploma of American patronage. Theirs has been the practical test.

Stuart's Dyspepsia Tablets are for sale at all druggists at 50c a box. Send coupon below today and we will at once send you by mail a sample free.

MILITARY PREPAREDNESS OF UNITED STATES.

Subject of Conference at Home of Secretary Garrison.

Washington, Jan. 5.—Military preparedness of the United States was the subject of an administration conference tonight at the home of Secretary of War Garrison. Every phase of the army and navy situation, with particular reference to appropriations for the coming year and a general plan of action for the next year, were discussed. Cabinet officials and leaders in congress who participated declared that no definite conclusions had been reached.

Attending the conference were Secretary Garrison, Secretary Daniels of the navy, Senators Chamberlain and Tamm, and representatives of the senate military and naval committees, Representatives Hay and Padgett, chairman, respectively, of the house military and naval committees, and Representative Underwood, the majority leader of the house.

One of the chief purposes of the conference was to devise plans for co-operative action between the executive and legislative departments on military and naval affairs, in making appropriations and carrying out a general plan of action for the next year, and to bring the army and navy up to the highest standard of efficiency that could be produced with the resources available.

On leaving the conference, one of the participants said that while no definite plan of procedure had been agreed upon, every one present had conceded that every possible effort should be exerted in congress to bring the army and navy up to the highest standard of efficiency that could be produced with the resources available.

ICELAND IN THE THROES OF A POLITICAL CRISIS.

People Enjoying It Because It Provides Something to Talk About.

Reykjavik, Iceland, Dec. 4 (Correspondence of The Associated Press).—Iceland is in the throes of a political crisis, and the people are enjoying it because it provides them with something to talk about these long, cold winter nights. It is nothing less than a quarrel between the liberal party, which is in the ascendancy, and his majesty, the king of Denmark, who is of course the ruler of Iceland.

It has led to the resignation of the prime minister, Eggerse, but he has consented to remain in office for the present, and if matters are fixed upon his satisfaction he will no doubt withdraw his resignation altogether.

Two Points of Disagreement With King. There are two points of disagreement with the king. The first concerns the constitution. Icelanders, being progressive folk, want an up-to-date constitution, and in the last session of parliament they agreed to amend the old constitution were agreed to in accordance with the popular demand. But when the prime minister sent them to the king for his signature, which, of course, they could not become effective—he refused to affix it. He maintained the constitution of Iceland could not be changed without the sanction of the Danish parliament.

The sturdy Icelandic
